

Together we can achieve great things!

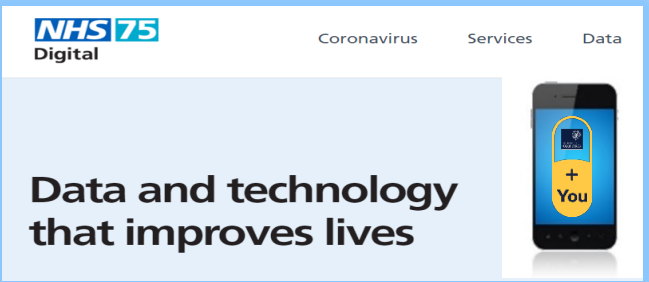

Thank you all for your continued support with the trial!

Let's keep working together with our participants to ensure that the best possible antiviral treatments become available in our local communities and beyond.

PANORAMIC has recruited

27,091

participants

NHS 75 Digital Coronavirus Services Data

Data and technology that improves lives

Questions about trial eligibility?

For eligibility advice, please **contact the Oxford central team** but remember **not to include** patient identifiable details when emailing the main trial address (panoramic@phc.ox.ac.uk).

(Emails containing participant identifiable data must only be sent to our NHS.net email address: ouh-tr.panoramic@nhs.net)

Boost to recruitment!

Our team is working closely with **NHS Digital** to **reinstate text messaging** to patients who register a positive test for COVID-19.

This will raise awareness of the trial and help to **increase registrations**.

We will let you know once it is operational.

Delayed IMP delivery?

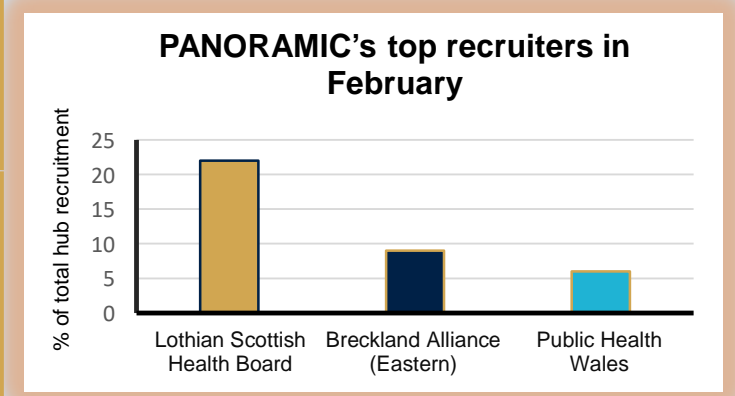

We aim to have IMP packs delivered to new participants **on the day following randomisation**.

If you, or any member of your team, become aware that **a participant has not received their IMP** at the **expected time**, please **contact the Oxford central team immediately** as it will have an impact on the **schedule of safety calls**.

Confirmation of consent

Please remind newly registered participants who have **an email address**, that they must click the link in their trial consent email to **reconfirm their consent**.

Participants **without an email address** will be **sent a copy** of their consent form **in the post**.

Virology Sub-study

We are **still recruiting** to the Virology study and have now switched to the **Less Intensive Cohort (Cohort 2)**.

Never miss an update!

All issues of our fortnightly newsletter can now be found on the PANORAMIC website at <https://www.panoramictrial.org/for-healthcare-professionals/documents>
