Recruitment numbers

Randomisations continue to be high with **327** recruits in October! This means PANORAMIC has recruited 979 participants in the last 3 months. We couldn't have done it without you and we thank you for your continuing support.

October Top Recruiters

- Public Health Wales
- Dorking
- Honiton Surgery
- Lothian, Scottish Health Board

Safety Guide

The central team has emailed **all hubs** a handy **safety guide** to help with recruitment and the follow up CRF completion, so **please look out for it!**

Virology

We have reached our Recruitment Target for the Virology Sub-study (VSS) and therefore have stopped recruiting participants.

- Please disregard the option to consent patients to Virology on the registration form.
- During randomisation, please notify self-registering patients who opted for VSS that sub-study recruitment has ended.

Reminders

- **Clinicians:** During the randomisation process, please make sure the GP address in a participant's contact details is correct.
- **Staff Leave/Holidays:** Please inform the central team of any upcoming leave that may affect recruitment and follow-ups.

Thank you!

PANORAMIC has now recruited
28,440
participants

Withdrawal from IMP

Please report all withdrawals via a **Withdrawal CRF** as soon as you become aware.

When completing this CRF, please record any additional withdrawal reasons provided by the participant or investigator in the **Notes** section on the participant's Spinnaker summary page.

Withdrawal Level

When withdrawing a participant, please will clinicians double-check the withdrawal level and kindly follow up with any safety calls that still need to be completed where necessary, especially if the participant has taken any number of IMP doses.
