

Happy 1st Birthday, PANORAMIC!

PANORAMIC will reach its **one-year anniversary** this Thursday, 8th December. Thank you to all our hubs - and an extra back-pat for the **ten sites** that joined for the first day:

- Banbury Health Centre
- Bicester Health Centre
- Carlisle Healthcare
- Fellview Healthcare
- Hounslow Medical Centre
- Medicus Health Partners
- Middlewood Partnership
- Newquay Health Centre
- One Norwich Practices
- Windrush Medical Practice

PANORAMIC has recruited **26,657** participants

New Hub

Welcome to **Dr Irvine** and the team at **Breckland Alliance**. Good luck with your recruitment!

PANORAMIC's Recruitment Milestones

- 8th December 2021 – 1st participants randomised by **Karen** and **Billy!**
- 11 January 2022 – We recruited our **3,000th** participant!
- 7th March 2022 – **60th** hub opened!
- 28th March 2022 – Recruited our **20,000th** participant!
- 21st April 2022 – **Opened to Paxlovid!**
- 26th October 2022 – **Central recruitment** started for Paxlovid!

Test-driving the CRF

Please **remember** that the trial database is only for **real patient data** and **not** for testing the CRF's predictive options. Test-driving the CRF has led to **false participant entries** in the trial data which have to be located and removed. Please **report** to the PANORAMIC team if it occurs and we'll follow it up.

Next Day Delivery

To help us ensure next day delivery of **IMPs** and Virology Sub-study **participant packs**, please **complete randomisations** by these **cut-off times**.

Study Type	Randomisation Cut-Off Times
Virology Sub-study	3:00pm
Main Study	4:30pm

Deviations and Reporting

If a protocol or procedural deviation occurs, please let us know - Perhaps a participant threw away their medication or an IMP safety call was missed?

Whatever has happened, we will be happy to provide advice and support.

We can help you complete an Incident Form or, if you prefer, you may follow the **Working Instructions** and then send it to us. If you are completing the Incident Form yourself, please:

- Complete sections **1-4 only**;
- Include all relevant details, including **times, dates, and participant ID**;
- **Do not** include any patient's personal identifiers;
- Then simply **return** it to us.

We will complete the remaining parts, including the **CAPA**, before requesting your PI's sign off.

AEs Without A Cause

Investigators, please assess and sign off the causality assessments to any **outstanding AEs**, which will help us to collect and analyse important missing data.

Top 3 Recruiting Hubs for November 2022

Hub and Spoke addresses

The database team have been working to ensure **Spinnaker** is **up-to-date** with the **addresses** of hubs and their participating spokes. If there have been **changes to your participating sites**, or those sites' addresses since you last confirmed these, please let the **Site Set-up team** know.
