Become a hero from home and join the search for COVID-19 treatments.

COVID-19 has affected the lives of everybody. Finding safe and effective treatments that can help people recover at home has been the drive of researchers at the University of Oxford and right now, you have an opportunity to help.

We are looking for people with COVID-19 to take part in a UK-wide COVID-19 treatment trial called PANORAMIC.

To be eligible, you will need to be aged 50 or over, OR aged 18 years and over with a listed health condition and have had a positive COVID-19 test result, as well as COVID-19 symptoms within the last 5 days.

Taking part is easy. For most people, there are no face-to-face visits involved and the trial can be joined online or over the phone from your sofa, with a participant pack couriered directly to you at home.

You will receive a symptom diary to fill in online and you may receive a treatment to take in the comfort of your own home. If you are registered with one of our listed participating sites, you may be eligible to obtain a free Lateral Flow Test from your GP practice.

Join the PANORAMIC trial's heroic volunteers in the search for COVID-19 treatments by visiting www.panoramictrial.org

PANORAMIC - the world's largest trial of COVID-19 treatments for recovery at home.
